

LOCAL NEWS.

**CORRESPONDENTS.**—We trust some of our correspondents will endeavor to write a little plainer. We are compelled to guess at words and sentences, and if you do not always find your articles as you intended them, you may know the reason.

We received an article signed "Peeler," but as we do not know who Peeler is, his article will not appear.

**COL. H. H. NEFF AND CAPT. J. S. FISHER,** expect to engage in the wheat trade this season.

**D. W. PORTER** has purchased property on Franklin street, east of Salt creek, from Harvey Fitzpatrick.

**MASONIC.**—There will be a special meeting of Randolph Chapter, No. 35, next Saturday evening, the 22d inst.

**H. D. BOWEN** has been doing a good work in building the gutter and graveling the side-walk in front of his residence.

**MISS INDIA GOODRICH** and **MISS BELLE ROSSMAN** will commence school in the South School-House, the first Monday of September.

**D. M. BRADBURY** and **WILLIAM D. FRAZER** have formed a co-partnership in the law business, and will practice in this and adjoining counties.

**THE 69th INDIANA** arrived at Indianapolis, on last Saturday evening, and had a reception on Tuesday. We welcome the brave men of the regiment home.

**THE DUCK POND** on Meridian street is navigable for the larger sized craft. It is a disgrace to the town that such a filthy place should be allowed, almost in the center of it.

**PREPARATIONS** are going on for a large amount of building in Winchester, next spring and summer. The high prices retarded building very much this season.

**LAST SABBATH** presented as disagreeable appearance as any day we ever saw in the month of July, in this climate. It was very suggestive of overcoats and fires.

**THE FAMILY** of Dr. G. W. Bruce arrived at home last week. The 142d Indiana, of which Dr. Bruce was Surgeon, arrived at Indianapolis on Monday, to be mustered out.

**MR. LAWRENCE**, of the firm of Tripp, Lawrence & Co., has purchased of Mr. Pennington a house and lot on the West Front, and designs erecting a brick business house next season.

**THE FIRST NATIONAL BANK**, of this place, has just purchased and received a very fine safe, which cost \$1,205. Their banking house has also been fitted up in fine style, and is now prepared to do a first class banking business.

**THE COMMISSIONERS** are taking some steps in view of building a new Court-House. We were rejoiced to hear this, as the old dilapidated one would have been entirely a nuisance if it had not been that it accommodates a law firm in town. All are glad that some one is benefited by it. Before this it was only occupied by rats and the ghosts of departed greatness.

**OUR FRIEND, JOHN PICKETT**, has completed his barn. It has stood only twelve years without sides, but as the war is over and our country is saved, Mr. P. concluded it ought not to stand out in the cold any longer without a garment. There are some folks in Winchester who might take a profitable hint and make some improvements in the way of fences, &c.

**CLEAN UP.**—As the sickly season approaches, every property-holder should clean the street and gutter in front of his property. The Town Council should make an order requiring it, by a certain time, and if not done, that body should have it done at the expense of the owner of the property. Dog fennel and rubbish of all kinds should be removed. An ounce of preventive is worth a pound of cure.

**A TERRIBLE ACCIDENT** happened in Winchester last week. While the people were asleep, and all nature was hushed in repose, some person who had not the fear of the law before his eyes, rushed forth, with malice, and pretending to be a good Samaritan, gave a dog something to appease his hunger, which had the desired effect. The dog died in a few hours afterwards.

**CHAIN AROUND THE PUBLIC SQUARE.** The much-needed protection to the shade trees around the Public Square has finally been made. The posts have been set for some time, but the chain that was to encircle the Square only arrived a few days ago, and is now in its proper place. We are glad of it, for it has been an eye-sore to see the shade trees destroyed, after they gave evidence of thrift, and had yielded to the pedestrian the delights of a good shade. The chain cost \$191, and weighs 1,528 pounds. Horses can be hitched to the chain, on the outside, but parties will be subject to a fine for hitching them on the inside. Let all recollect this, as it may save a three or five dollar fine, with costs.

**GOLD PENS** at Warden & Co's., opposite Glenn's Block, Indianapolis.

**THE WHEAT CROP** in this county has been harvested, and we have evidence from farmers that it will not be a half crop; the heads are badly filled. Instead of an average of about forty grains to the head it will not be much over fifteen, besides the berry itself is not as good as it usually is. The rust, weevil, and wet weather, has damaged many fields; some were not worth cutting. We believe we are safe in saying there will not be over a third of an average crop in the county. We solicit information from all parts of the county on this matter.

**TOWN COUNCIL.**—We have been inquired of very often, by persons who are interested in the improvement of the streets and side-walks, desiring to know what our Town Council were doing, or proposed to do; but we were entirely in the dark. We are not aware that the Board has had a meeting since their election. We would gladly let our friends know what they are doing, if anything; indeed we take a pleasure in telling of the improvements or proposed improvements of our town, if the matter is brought to our knowledge. Let us hear from you, gentlemen.

**DATTON AND UNION RAILROAD.**—We invite the special attention of the traveling community to this road. By a recent change in the time-table, it becomes an important road to persons going east, as its connections now are perfect. Persons desiring to go to Columbus can reach that point three hours sooner than by any other route, besides you can leave Winchester in the morning and go to Dayton and remain there about six hours and return home the same day. This is an important item to business men.

In connection with this we desire to say a word in reference to Mr. Stinson, the gentlemanly Superintendent of the road. We believe no road can boast of a more honorable man to attend to the business of the company and the interest of the traveling public. We have ever received the most gentlemanly treatment on this road.

We refer our readers to the important connections on this road, in the advertisement in another column of the paper.

**STATE NORMAL INSTITUTE.**  
KINGSTOWN, July 15, 1865.

The Normal Institute is all that talent and experience can make it. In addition to our corps of instructors, Hon. Mr. White, Superintendent of Public Instruction in West Virginia, and Rev. Dr. Maynard, of Connecticut, are in attendance. The beneficial effects resulting from this assemblage of teachers, will be felt throughout Indiana, for many years to come. P. HATT.

**For the Journal.**  
**FARMLAND.**  
THE CROPS.  
It is not thought that the wheat will average one third of an ordinary crop; a great deal was not cut; the continued heavy rains did fair to seriously injure what is standing in the shock. Corn, oats, grass and flax, promises now an abundant yield.

**RETURNING SOLDIERS.**  
The soldiers of the 20th regiment, (formerly the 19th) arrived at home last week. The 69th Battalion will arrive the first of this week. Many hearts are made glad by the return of loved ones long absent, but that joy is marred by the recollection of the many who have fallen in our country's struggle.

**CAPT. BERRIS.**  
Of Company A, 84th regiment Indiana volunteers, has been relieved from duty at the Soldier's Home in Indianapolis, where he has been for some months, and is now at home, looking very well, but still suffering from the effects of a severe wound received in the service.

**DECEASED.**  
At her residence, four miles west of Winchester, on the 12th inst., Mrs. Rebecca Moorman, (consort of Tarlton Moorman,) of lung disease, aged about 65 years. ARI.

**For the Journal.**  
**RIDGEVILLE.**

Perusing the columns of the Journal closely, I see correspondents from all portions of the county, with but few exceptions, and one of these exceptions is a little village, called, or rather known as Ridgeville, situated on the Mississippi river, about eight and one-third miles north of Winchester and three miles west of Deerfield. We are an ambitious people—(why should we not be?)—and do not wish to be behind, but for some unknown reason, we have not, until very recently, learned that it was customary for backwoodsmen to write public reading matter; but as it has become fashionable, I shall endeavor to give you a brief sketch of our town and surrounding community.

**BUSINESS FACILITIES.**  
For a short time past the farmers have been very busy saving their harvest, consequently business of all kinds has been rather dull. We have merchants and mechanics of different classes. Three very able dry goods merchants, namely—E. T. Bailey, Starbuck & Kitzelman, and D. R. Williamson, and one grocery and confectionery store, all of which have been doing a very good business. Also, we have two splendid blacksmiths and one of the best gunsmiths in the State; two practicing physicians, both of good standing, who give universal satisfaction. We have a No. 1 hotel, kept by R. H. Sumption, a gentleman who is always ready and willing to accommodate his customers with all the delicacies of the season; also, a

saw-mill and flouring-mill; and I am very sorry to say that our little village at present affords one beer shop.

**THE CROPS, FRUIT, ETC.**  
The crops, with the exception of wheat, are good; that is generally believed not to be more than a half crop; corn, oats and flax, will be more than an average yield. Fruit is almost an entire failure. The health is generally good.

**RETURNING SOLDIERS.**  
D. W. Ward, of the 69th regiment, John Fox, of the 25th, W. E. Starbuck, of the 84th, Charles Butterworth, of the 75th Indiana, have recently come home from the army, discharged. We welcome the boys that have been engaged in defense of their country.

**RETURNING EMIGRANTS.**  
The emigrants last fall to Canada are now returning rapidly to their former homes, there to feast on the honors they have won. For the present, adieu. U. R. A. B.

**For the Journal.**  
**DEERFIELD.**  
THE CROPS.

The wheat crop in this vicinity is all harvested, and after all the gasconade about the great wheat crop, it turns out to be less than a half crop in quantity, and very inferior in quality; and it is getting worse every day, as the continued wet weather is causing much of it to grow in the shock. The grass crop is good, but we get it spoiled as fast as it is cut. Oats is generally good, but flat on the ground, from the effect of late storms. Corn, so far, looks well.

**BUSINESS CHANGES, ETC.**  
It seems that Deerfield is destined, in spite of ill fate and reverse winds, to be one of the towns, yet Mr. C. V. No-force having removed to parts unknown, Olney Whipple has taken possession, and thoroughly refitting and renovating the old stand on the south west corner of Main and Meridian streets, and expects to accommodate the traveling public in a few days.

Isaac Sipe, a returned soldier, will open a large store in a few days. The second edition of Ward township desecrators made their appearance last week—among them was the notable Canadian giant, or colored school teacher, that sent so many pleasant hours around Deerfield.

**For the Journal.**  
**WASHINGTON TOWNSHIP.**

Zebulon Edwards says there are a great many people that spoil their sorghum molasses by allowing rag weed to grow near enough to their cane for the fine dust that blows off of the rag weed to settle on the cane. The dust of rag weed is very bitter, and he says that is what spoils much of the molasses. Edwards has a cane mill, and has been largely in the business, and from that fact I think his opinion is worthy of notice.

It is the opinion of William Cranor that the present wheat crop has been hurt more by the rain knocking the bloom off than by the weevil. This is a new idea to me, and as the columns of the Journal are open for such discussions, I give the matter publicity for other correspondents to notice.

I am going to try the experiment of giving each individual's plan of farming, with his name attached, in a few articles, to see if it will not give more farmer's plans publicity. The rain certainly will greatly injure the potato crop in this vicinity. I noticed while traveling through Virginia, Maryland, Delaware Pennsylvania and New Jersey, that the potato crop, both Irish and sweet, did better in the high and dry sandy soil. Our sugar tree ridges will produce a good crop of potatoes, and not be so liable to rot before the time for digging. J. H. STINE.

The proceeds of the sales of rebel cotton in New York amount to four million dollars. This sum has been paid into the United States Treasury, and claimants can only recover by a suit before the Court of Claims.

The rebel Generals Kirby Smith, Magruder, Price, Shelby, Hindman, and Bee, with ex-Governors Allen and Moore, of Louisiana, and Murrai, of Texas, are en route for Mexico. They disclaim any intention of uniting with either party in that country.

**BUSINESS NOTICES.**

If any one doubts that the American House is what we said it was, we advise that person to go there and take dinner, or stay over night, and then come and let us know what you think about our evidence of its reliability.

Bradbury desires the people to understand that his Saddle and Harness shop is west of Quick's Variety Store, where he will be pleased to see all who desire Saddles, Bridles, Harness and Leather, cheaper, for cash, than any house in the county.

Arthur's Home Magazine, for August, is on our table in advance of all other Periodicals. As it is the first, it is also the best published.

The number of marriages that are occurring keeps Lenkersdorfer & West busy making Furniture. They supply nearly all the young married folks in the county, because they make better Furniture than any other house.

The Chinese wear wooden Shoes, in order to make their feet small, but if any lady will go to Jeff. Quick's and see his Shoes, and desire to wear wooden ones, we will agree to buy a pair and make her a present. He keeps the best in this market.

In adorning the outward person, we add beauty to the face, besides it has an exhilarating influence on the vital fluids. Williams has the very Goods to do this. Tell him you saw the statement in the Journal, and he will show them to you without charge.

The Winchester House is still kept by Mr. Love, who is gaining friends every day, as a hotel keeper. We can assure the public that this is a good House, and those who stop there will get value received for their money. He will take all the boarders he can get.

John D. Carter will give all his customers good bargains who will call now and buy, as he desires to start to New York soon for a new stock. Goods have come down very materially at this house. They are selling many articles below cost. So bring on your produce and greenbacks.

Inspire my pen, O sacred muse, Invoke the gods and be profuse In all that's lovely, to portray The recollection of the auspicious day When Helms did with photographic art Great beauty to his porcelains impart.

John why is Reeder & Weldy's store like Barnum's Museum? Can't answer the question. Well, it is because they keep all their rare articles on exhibition, and their customers are so frequent that they scarcely ever get time to put them away. They sell cheap, for cash or produce.

**TILE.**—This wet weather with which the people have had to contend this summer, has more than ever demonstrated the utility of under-draining, and in consequence Messrs. O. & J. K. Martin have had great demands made on them for the brick Tiling. Let every body get this Tile, for it is all that it has been recommended to be.

We are pleased to announce to the people of Randolph county that Wm. R. Way & Co. are now the proprietors of the corner Grocery, formerly owned by J. S. Way & Co. Our friend William, after fighting the rebels for three years, now proposes to sell Groceries to the people as cheap as any man can sell. We ask every body to call and try this new firm, for you will find Billy as clever a fellow as ever sold Coffee to any body.

**TO MERCHANTS.**—The attention of merchants selling Boots and Shoes is invited to our house. We propose keeping as complete a stock, of qualities and styles, as can be found in the Cincinnati market, with duplicate prices. Our past experience in the retail trade enables us to furnish styles and qualities of Boots and Shoes which merchants can handle profitably to themselves and their customers. Parties buying their Fall Stock are especially invited to look through our stock.

**MUNCIE.**

Oakerson & Scheibler are selling their immense stock of Goods off at cost, with the view of being ready for the fall trade. This is sensible. By this means they have always got new and seasonable Goods.

**FARMLAND.**

John A. Henning is now in the city replenishing his stock of Goods. He will be prepared to furnish his many customers with a full assortment of Summer stock. His motto 'quick sales and small profits.' Call and examine his stock before purchasing elsewhere.

Provisions—The market continues quite excited, and prices greatly unsettled, so much so that accurate quotations can not be given. Mess Pork is held at \$28. Bacon was held 2c higher. 16lbs was refused for Shoulders. Clear Sides were held at 20c, and common Hams at 25c. 20lbs was refused for 500 tierces Lard.  
GRAIN—The market for Wheat was quiet. Holders asked \$1.50 to \$1.55 for prime to choice red, but \$1.50 was the best rate obtainable.  
CORN—The market has undergone no material change. There is a fair jobbing demand at 30 to 35c for prime to choice Rio Coffee, 13 to 17c for raw Sugar, 20 to 21c for hard refined, and \$1.15 to \$1.18 for New Orleans Molasses.

**BUTTER.**—A fair demand at \$4 to \$5 for prime to choice Central Ohio. The lower grades are dull and neglected.

**NEW YORK MARKET.**  
Flour—Extra round hoop Ohio \$5.57 to \$7.00; trade brands \$7.05 to \$7.50, market closing quiet.

**Boston Boot and Shoe Market.**  
Trade has hardly been up to the expectations formed in regard to the business of July, but owing to the low rates at which stock is held and lower prices expected, buyers seem not anxious to take hold. The Southern trade which was looked for, does not promise so fair as was expected, as that section will buy but little unless a credit is afforded them until they harvest at least one crop of the product of their soil. Very high cut boots of all kinds for ladies and misses are in most demand, and for the coming season will be the leading styles.
